

Massage Menu

We at the Gazebo Inn have created the ultimate on-site relaxation experience in our tranquil massage room. No detail has been overlooked, dim salt lamp lighting, lightly scented aroma, memory foam adjustable heated massage beds, and the most luxurious massage sheets and blankets you will ever glide into. All of this conveniently steps from your room. Included with your massage is a choice of Bon Vital lotions, create your own experience by adding an aroma therapy to your lotion. At the conclusion of your massage you can keep the high-end lotion for at home use.

We can assure constant quality and professionalism by using therapists employed directly by the Gazebo Inn, rather than requesting therapists from an outside spa.

Massage should be booked prior to check in so that you receive your first choice on time and allowing us to have a welcome packet consisting of your robe and slippers, along with an explanation of the massage and lotion menu.
